

415 Volt Air Compressors

Dependable Performance

Puma's all new and improved range of 415 Volt air compressors is now available in Australia with a choice of popular models from 3 to 11 kW.

The trusted Puma slow-revving compressor pump ensures high free-air-delivery performance backed by the durability of full cast iron construction.

Teco's efficient MEPS-compliant motor saves you money by reducing the electric power required to operate the compressor.

Factory, workshop and industrial applications will be reliably served by these heavy-duty, quiet-running stationary air compressors.

* Measured per AS 4637-2006. # Star-delta motor starter on P75; DOL starter on other models. ^ Measured @ 1 m per AS 2221.1-1979.

Features and Benefits

Puma Compressor Pump

Puma's traditional over-square pump design delivers high flow-rates at low pump speeds. Its full cast iron construction is built tough for reliability and long service life.

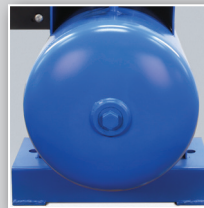

Star-Delta Motor Starter

The 11 kW model is fitted with a star-delta starter in an IP66 enclosure. This reduces starting current demand and voltage dip in accordance with Electricity Supply Regulations.

Teco 415V Electric Motor

The fully copper-wound, high efficiency MEPS-compliant motor saves you money by using less electricity. It also has an industrial heavy-duty, cast iron frame with IP55 enclosure protection.

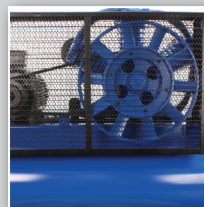

WH&S Approved Air Tank

An oversized air tank reduces compressor start / stop cycling, maintains more constant air pressure and offers better compressed air cooling for improved moisture removal.

Teco DOL Motor Starter

Each model from 3 to 7.5 kW is fitted with a direct-on-line starter in an IP65 enclosure to provide motor start / stop switching, overload protection and remote fault monitoring.

Trade Quality

From the fully enclosed steel belt guard to the anti-block tank drain valve, each and every component is selected to withstand the rigours of day-to-day industrial trade use.

PUMA and the PUMA WILDCAT image are registered trade marks of Puma Industrial Co., Ltd. (Taiwan).

TECO is a registered trade mark of Teco Electric & Machinery Co., Ltd. (Taiwan).
